FAMINE IF MEN QUIT.

The payrolls for the second half of employes were not lawfully employed. City Engineer L. C. Kelsey and Su-perintendent of Streets Peter S. Condie said yesterday that after the course of a few days, if the city auditor still re-fuses to pay the men, mandamus proceedings will be begun in court against Anditor Felt to compet him to pay the men who have worked.

Frank H. Hines, superintendent of the

waterworks department, said yesterday afternoon that he would not take any steps in the matter, adding: Hines Fears a Water Famine.

"I will keep my men just as long as they are willing to work and have their payrolls held up. When they quit, then the city will be brought face to face with a water famine. head of each department, explaining why he held up that particular payroll The following is a copy of the one sent to Superintendent Hines:

With very great regret I am forced to return herewith the payrolls received from you for the reasons:

"About three, weeks ago the city council passed & requisition, which was approved, allowing me \$1,200. The men on my payroll were employed under that requisition. On Feb. 12, at the instigation of the mayor, I sent in a request to the city council to employ a certain number of emergency men, the council to fix their salaries. That is the last I have heard of that communication."
